Configuring Safety Connection Settings in the Everbridge Mobile App

mobilehelp.everbridge.com/articles/en_US/MobileHelp/Configuring-Safety-Connection-Settings-in-ContactBridge

Create a Duress Code

Use your duress code to silently trigger an SOS when using Safe Corridor.

- 1. Tap = on the upper-left corner.
- 2. Tap Safety Settings.
- 3. Tap Create Duress Code.
- 4. Enter and confirm a four-digit code.

Set a Contact Number

The contact number will be used by your organization to contact you when an SOS has been triggered.

- Tap = on the upper-left corner.
- 2. Tap Safety Settings.
- 3. Tap Phone Number and set the country or region of your phone number.
- 4. Tap Add a phone number and enter your phone number.

Set Auto Check-In

- Tap
 = on the upper-left corner.
- 2. Tap Safety Settings.
- 3. Toggle Auto Check-In on.

Set Country Location

Your country location will ensure that any emergency calls you may place will be properly routed. Remember to update your country location when travelling.

- Tap = on the upper-left corner.
- 2. Tap Safety Settings.
- 3. Tap I'm currently in.
- Select your location.
- 5. Choose Back in the upper left to save your changes.
