

EVERBRIDGE

EMERGENCY NOTIFICATION SYSTEM

What is Everbridge?

- Everbridge is an emergency mass notification system and campus safety tool
- When an emergency or threat is identified, the Office of Emergency Preparedness and Response can send out necessary information to the Tulane community using the mass notification capability within the Everbridge system, and recommend the best course of action

Where can I download the Everbridge app?

- Search for and download the Everbridge app on the Google Play or Apple App Store

What safety features are available on the Everbridge app?

- **Report:** This feature allows you to silently and discreetly communicate with TUPD dispatchers
- **SOS:** This button allows you to notify TUPD if you are in need of emergent help
- **Safe Corridor:** If you find yourself in an uncomfortable or vulnerable situation on campus, this button will trigger an SOS if your safe code is not entered in a given period of time
- **Emergency Call:** This button connects you directly with TUPD
